SUMMARY

Software Developer with hands-on experience building and deploying web applications using Next.js, React, TypeScript, and Node.js. Skilled in responsive interfaces, REST APIs, databases, authentication, and real-time collaboration features. Experienced in building practical web products with clean, maintainable code, reliable functionality, and scalable architecture.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, SQL, HTML, CSS

Frontend: React.js, Next.js, Redux Toolkit, Zustand, Tailwind CSS, Shadcn/UI

Backend: Node.js, Express.js, MongoDB, Redis, Authentication, Authorization, Socket.io

Tools: Docker, Git, GitHub Actions, CI/CD, Postman, Vercel, Linux

PROJECTS

CodeSync 🔗 | BetterAuth, Yjs, Socket.IO, Zustand, Node.js Mar 2026

- Engineered a real-time collaborative coding platform supporting **10+ concurrent users per room** with conflict-free editing using **Yjs CRDTs**.
- Synchronized **4 real-time features** in tandem, including code editing, file updates, user presence, and live cursor tracking with sub-second latency.
- Built an integrated AI coding assistant delivering code explanations, debugging support, and contextual suggestions during live sessions.
- Architected a browser-based IDE with multi-file project management across **a full workspace**, Monaco Editor, authentication, and collaborative workspaces.

Storely 🔗 | MongoDB, Express.js, React.js, Node.js, Redux Toolkit Nov 2025

- Developed a cloud storage platform supporting file uploads up to **100 MB** with cloud-based storage and secure file management.
- Established **4-tier RBAC** (Owner, Admin, User, Viewer) for fine-grained resource permissions across the platform.
- Designed an administrative dashboard covering **3 core areas**, including user monitoring, access control, and platform administration.
- Secured user onboarding through OAuth authentication and session-based authorization across all protected user and admin routes.

Orbit AI 🔗 | Next.js, Socket.IO, Turborepo, Groq, Redis Mar 2026

- Launched a real-time communication platform supporting **1-to-1 and group conversations** using Socket.IO.
- Delivered **2 messaging modes** with real-time delivery, live user activity updates, and collaborative interactions.
- Leveraged Redis for real-time backend services and session management to support concurrent communication at scale.
- Powered conversational AI features with Groq APIs for summaries, contextual recommendations, and real-time assistance.

CERTIFICATIONS

Frontend Developer (React) HackerRank

- Certified in frontend development with **React.js**, JavaScript, HTML, and CSS.

EDUCATION

Indira Gandhi National Open University
Bachelor's in Computer Applications

Aug 2024 – Aug 2027
Delhi, India
